Clarification of News Report

We write with regard to your letter dated 19 May 2016 requesting clarification on the news article entitled "Macay to increase public float" posted in The Manila Times (Internet Edition) on May 18, 2016. The article reported in part that:

"MACAY Holdings Inc., the food and beverage holding firm of businessman Alfredo Yao, plans to sell new shares to the public to raise fresh capital and make its stock more liquid. 'We want to increase our public float by up to 20 percent. At present, 10 percent of our shares are owned by the public. We want to expand it to 30 or even 35 percent,' Macay chairman Alfredo Yao said on the sidelines of the company's stockholders' meeting on Wednesday.

. . . . Yao, a former special envoy to China for tourism and cooperation, explained that the intention behind the plan to increase public ownership is to make Macay shares more liquid so that investors can easily trade in the stock and realize gains from their investments in the company. 'We want our shares to be more liquid, while the proceeds of our intended share offering will be utilized for our expansion projects in as much as we have sufficient operating cash at present,' he said. Yao said they are looking at the second quarter for the follow-on offering or when the equity market stabilizes. 'We are waiting for the market to improve. We want to make sure that when we offer more shares to the public, it would be favorable on the part of the company,' he said. . . ."

Macay Holdings, Inc. ("Macay Holdings" or "the Company") wishes to clarify that issuing new shares to raise new funds and/or promote stock liquidity and the timing and size of any such issuance is always one of the available options that any listed company, including Macay may consider. In the case of Macay, the proper disclosures will be made as and when such options are adopted by the board of the Company.

We trust that the foregoing clarifies the matter.

Thank you.
